
Call for Papers
Discrete Applied Mathematics

Special Issue: Computational Advances in Combinatorial Optimization

This special issue will present recent advances in all areas of Combinatorial Optimization. The issue will be based on contributions presented at ECCO XXIX (Budapest, May 26-28, 2016), but the invitation to submit is extended to all ECCO and CO members.

The deadline for submission is **November 30, 2016**.

Main topics of interest are (but not restricted to):

- Approximation algorithms
- Exact algorithms
- Graphs and networks
- Heuristics
- Mathematical programming
- Metaheuristics
- Scheduling

All articles will be thoroughly refereed according to the high standards of *Discrete Applied Mathematics*.

The full papers must be submitted through the Elsevier Editorial System <http://ees.elsevier.com/dam>. When submitting your paper, be sure to specify that the paper is a contribution for the Special Issue of **ECCO-CO**, so that your paper is assigned to the guest editors. Please see the Author Instructions on the site if you have not yet submitted a paper through this web-based system. Make sure to note that your work is intended for the Special Issue and to choose the article type **SI: ECCO2016**.

Accepted papers will be published online individually, before print publication.

We are looking forward to receiving your contribution.

The Guest Editors,
Tibor Jordán
Tamás Kis
Silvano Martello
